{ Dimensions: 170mm(6¹³/₁₆")(W) × 61mm(2¹³/₃₂")(D) × 118mm(4²¹/₃₂")(H) }
 { Weight: 0.8kgs (1.76 lbs.) }

ACCESSORY

Station Key

Station Key Box (Without Lock)

*Station numbered key can be prepared from No. 1 – 999 with chain to be installed in the station key box. You can choose your preferable numbered keys according to the layout of the premises and patrol schedule.

*The station box and label to be pasted on the station box are prepared according to the number you need, and the station box with lock type protects from the lost of station key.

Station Key Box (With Lock)
Key for Lock

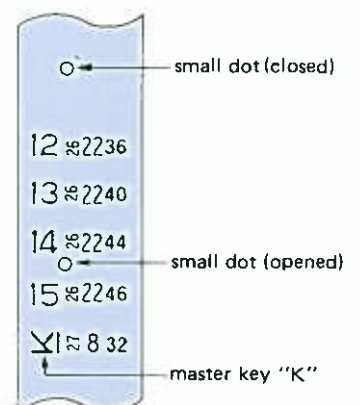

***When ordering**

1. Specify: Desired number for station and/or watchman's No., such as No.1-45, 60, 70 and 80.
2. Specify: The quantities for each with and/or without lock type of station key box.
3. The number label to be pasted on the station box.

Master Key

Opening and closing of the machine for change of the record tape and time adjustment can be done only by using the master key which should be kept by supervisor or manager. Every time the case is opened or closed, a small dot is printed on the tape and when the case is opened by the master key, a letter "K" is imprinted on the tape for tamperproof.

THE WATCHMAN HAS THE ABILITY TO FIND OUT THE DELICATE AND ABNORMAL PHENOMENON WHICH EVEN SOPHISTICATED SYSTEM MISSES.

Amano Watchman's Time Recorder PR-600 accurately records when, where, who checked your security and at the same time, proves the honest work of watchman.

Your security is guaranteed by the honest work of watchman and the continuous check of the record by which your property is prevented from unforeseeable accident such as fire and burglary, and other incidents.

It is already proved by the data of insurance company that accident at the firms using watchman's time recorder are lower than average, and in some country the lower rate of premium is applied for the firms using watchman's time recorder.

METHOD OF USING

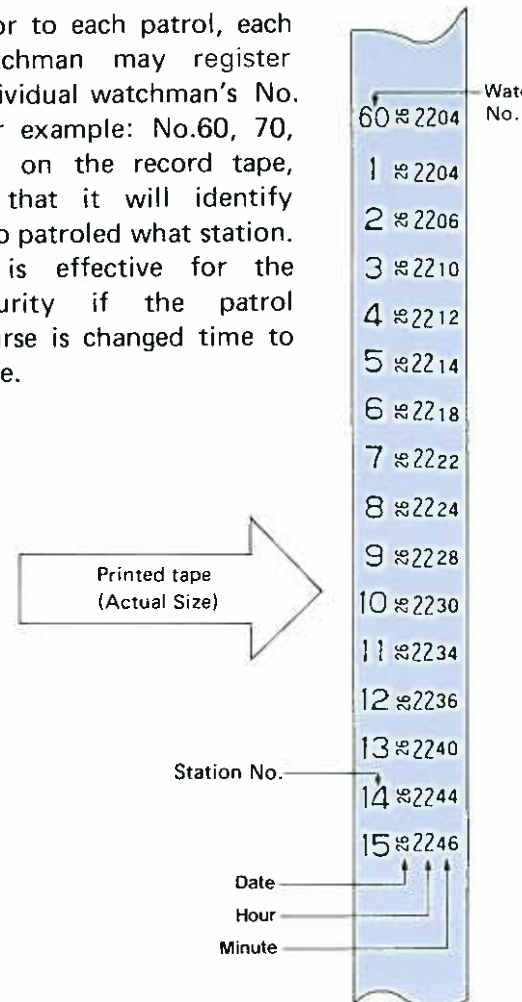

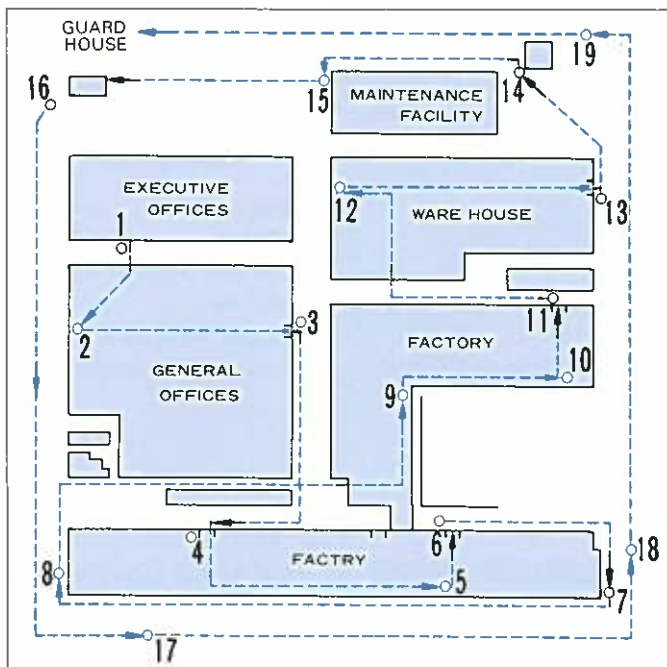

The watchman carries watchman's time recorder PR-600 with him to each check point.

When he arrives at each check point, he takes the station numbered key out of the station key box installed at the point and records the checking time by inserting and turning the station key in the PR-600 watchman's time recorder.

Thus the station No., Date, Hour and Minute are recorded in plain figure on the record paper tape.

Prior to each patrol, each watchman may register individual watchman's No. (for example: No.60, 70, 80) on the record tape, so that it will identify who patrolled what station. It is effective for the security if the patrol course is changed time to time.

WATCHMAN'S SAMPLE ROUTING MAP

TIME MANAGEMENT TERMINAL

AMX-20 Series

- Magnetic card type.
(JIS-2, ISO-2, ANSI-3)
- Two-way communication function.
- Up to 31 AMX-20 series terminals can be connected in the same line.

ELECTRONIC TIME RECORDER

EX-3000N Series

- The most economical time recorder in the Amano Electronic Time Recorder line.
- Compact and simple design.
- User-friendly.

TIME MANAGEMENT TERMINAL

AMX-10 Series

- Magnetic card type.
(JIS-2, ISO-2, ANSI-3)
- A maximum 31 terminals may be interfaced with a PC or workstation, depending on a company's needs.
- Four direction card swipe capability.

ELECTRONIC TIME RECORDER

EX-6000N Series

- Large and easy to read clock face.
- Smooth and quiet dot matrix printing.
- Full-power reserve for operation in case of power failures.

MAGNETIC CARD ENCODER

CE-2000 Series

- Magnetic Stripe card encoder.
(JIS-2, ISO-2, ANSI-3)
- Easy operation.
- Pre-set format registration.
- Three-level security function.

ELECTRONIC TIME RECORDER

EX-9000 Series

- Reliable, Cost-Performing, Maintenance-Free, Heavy-Duty.
- Durable frame and sturdy design for years of service.
- Large easy to read clock face.

INTELLIGENT TIME RECORDER

MJR-8500

- The MJR-8500 time recorder enables any business to total the number of actual hours worked each day or each month and calculate hourly wages.

ELECTRONIC TIME RECORDER

PIX-3000 Series

- Various printing formats.
- Full-power reserve for 72 hours or 400 printings during power failures.
- Quiet, clear printing for up to 5 carbon copy layers.

Specifications and operational characteristics are subject to change without notice.
